FURTHER TRADING STATEMENT

In terms of paragraph 3.4(b)(i) of the Listings Requirements of the Johannesburg Stock Exchange, listed companies are required to publish a trading statement as soon as they become reasonably certain that the financial results for the next period to be reported on will be more than 20% different from those of the previous corresponding period.

Further to the trading statement published on 15 February 2016, shareholders are advised that, whilst the earnings per share will remain the same at 0.42 cents, the headline earnings per share will show an improved position at 0.51 cents (versus 0.42 cents previously announced) compared to 2.33 cents for the six months ended 31 December 2014. This will be 78% lower than the prior comparative period for the reasons indicated on 15 February 2016, being primarily due the roll-out of new day clinics in line with Advanced Health's strategy of being the leading provider of day clinic facilities.

The financial information on which this trading statement is based has not been reviewed and reported on by the company's auditors.

The company's interim results for the six months ended 31 December 2015 are anticipated to be released on or about the 25 February 2016.
